Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • I need my loan to be approved quickly. • I want a fair decision without unnecessary delays. • I need transparency in the approval process.	THINKS • Will my income be enough for loan approval? • Why do banks take so much time? • What if my application gets rejected?
PERSONA NAME <i>(Role / User Type)</i>	
DOES • Enters personal and financial information. • Checks loan eligibility online. • Compares different loan offers.	FEELS • Hopeful about getting the loan. • Confused about eligibility criteria. • Disappointed if rejected.
