

Scalability & Future Plan

Date	01 July 2026
Team ID	-
Project Name	Smart Lender
Maximum Marks	1 Mark

Scalability & Future Plan:

This document outlines how the current project solution can be scaled to handle larger user bases, increased data loads, or extended features in the future. It also captures the team's roadmap for enhancing and evolving the project beyond its current state.

Current System Limitations:

S.No	Limitation	Impact	Priority to Address (High / Medium / Low)
1	Limited dataset size	May reduce prediction accuracy.	High
2	Offline prediction	No real-time banking integration.	Medium
3	Basic security	Needs stronger authentication.	Medium

Scalability Plan:

S.No	Scalability Aspect	Current State	Proposed Upgrade / Solution
1	User Load	Supports limited users	Deploy on cloud using scalable servers.
2	Data Storage	Local CSV dataset	Use MySQL or cloud database.
3	Performance	Single machine execution	Optimize model and use load balancing.
4	Security	Basic Flask security	Add user authentication and encryption.

Future Roadmap:

Phase	Planned Feature / Enhancement	Target Timeline	Expected Impact
-------	-------------------------------	-----------------	-----------------

Phase 1	Real-time credit score verification	3 Months	Improved prediction accuracy
Phase 2	Mobile Application	6 Months	Better accessibility
Phase 3	Cloud Deployment	9 Months	Support more users
Phase 4	Deep Learning & Explainable AI	12 Months	Higher accuracy and transparency
