

Code-Layout, Readability and Reusability

Date	29 June 2026
Team ID	-
Project Name	Smart lender
Maximum Marks	5 Marks

Code-Layout, Readability and Reusability:

This document evaluates the quality of the codebase in terms of its structure, readability, and reusability. Well-organized code with proper naming conventions, comments, and modular design ensures that the project is maintainable and can be extended or reused in future development.

Code Layout Checklist:

S.No	Code Quality Parameter	Description	Followed (Yes / No / Partial)	Remarks
1	Consistent Indentation	Uniform spacing and indentation used throughout the project	Yes	PEP-8 coding style followed
2	Proper File Structure	Project files organized into templates, static, model and source files	Yes	Easy to navigate
3	Meaningful Variable Names	Variables clearly describe their purpose	Yes	Improves readability
4	Function / Method Names	Functions have descriptive names	Yes	Easy to understand
5	Code Comments	Important code sections are commented	Yes	Helpful for maintenance
6	Modular Design	Code divided into reusable modules and functions	Yes	Better reusability
7	No Redundant Code	Duplicate code removed wherever possible	Yes	Optimized implementation
8	Error Handling	Input validation and exception handling implemented	Yes	Improves reliability

Reusable Components / Modules:

S.No	Component / Module Name	Language / Technology	Where Reused	Reusability Level (High / Medium / Low)
1	Data Preprocessing Module	Python, Pandas	Model Training	High

2	Machine Learning Models	Scikit-learn	Prediction Module	High
3	Flask Backend	Flask	API and Web Application	High
4	HTML Templates	HTML, CSS	User Interface	High
5	Model Loader (.pkl)	Pickle	Prediction API	High

Overall Code Quality Assessment:

Aspect	Rating (1-5)	Comments
Code Layout & Structure	5	Well-organized project structure
Readability	5	Clear variable names and functions
Reusability	5	Reusable modules and functions
Documentation / Comments	5	Adequate comments throughout the code
Overall Score	5/5	Excellent code quality and maintainability
